The Names Project Quilt is currently composed of nearly twelve thousand individual panels made by grieving lovers, friends, and relatives in memory of men and women who have died from AIDS. Moved by the power of the Quilt and mindful of the need to make our university com-

munity aware of the human dimension of AIDS, we have arranged to display part of the Quilt here at Columbia.

If you would like to make a panel for someone who has died from AIDS, contact the Metro New York Names Project at (212) 459-4366.

Sponsored by the Columbia Gay Health Advocacy Project in conjunction with the Metro New York Names Project. To use CGHAP's anonymous HIV testing program, medical clinic, or HIV-positive support group, call 854-2878.
