We All Need to Know About AIDS

Come discuss the facts about AIDS with other students:
- Causes and characteristics of HIV disease, including AIDS
- Treatments that are keeping people healthy right now
- The risks of unprotected vaginal and rectal intercourse and needle-sharing for IV drug use
- The safety of ordinary, non-sexual daily contact with HIV-infected people (including people with AIDS)
- How to make sex safer by avoiding mucous membrane contact with blood or semen
- Why anonymous HIV antibody testing is now useful
- HIV-related services available right here on campus

Come to Wallach Lounge on one of those dates:
- Friday Sep. 1 5:00 p.m.
- Saturday Sep. 2 3:30 p.m.
- Tuesday Sep. 5 2:00 p.m.
- Wednesday Sep. 6 11:00 a.m.

Sponsored by Columbia Gay Health Advocacy Project & AIDS Peer Educators.
For more information about AIDS services on the Columbia campus, call 854-2878.
