

9HAP

group 1

10/15/85

first group (13 + Eric + me)

all present - but Adam is 20 mins. late + Danny
is 35 late

we sit in the following way:

<u>Rich</u>	<u>Paul H.</u>	<u>Eric</u>	<u>Danny</u>
<u>Barton</u>		<u>Murray</u>	
<u>Michael S.</u>		<u>Paul D.</u>	<u>Stratford</u>
<u>Bruce</u>		<u>Michael D.</u>	
<u>Laura</u>		<u>Anastasio</u>	
	<u>Oscar</u>	<u>Karin</u>	

we don't change our from specimen jars cups to
celebrate the start of the program - a feeling of energy,
attention, + good will in the room with some tension -
we start with a lot of "business" - setting our
contract + boundaries - smoking debate - the non-smokers
win - our insistence on associates coming on time / calling
when they don't come - confidentiality - offer to tell
to us individually // upset - ^{READING} assignment to read
for next week (on immune system) and give each
ass. a packet of material -

J. Kassler - Gay Men's Health

D. Altman - from Socialist Review "The
Polarization of AIDS"
